## MAIN FEATURES

- Durable, Portable and Foldable Solar Panel
- Polycrystalline silicon solar panel
- Easy Operation
- Mobile charging point
- Lithium ion battery
- Flexible stand and long wires for hanging bulbs
- Long working hours
- Safer than kerosene lanterns

### TAPAN SOLAR LANTERN

- Long work time, 10-12 hours in low to high switch setting
  - 3.7v2200mAh Lithium battery,3 years lifespan
  - Color Temperature of the bulb 6000-7000K
    - Easy to Carry and Hang Lantern
    - Solar Panel 1.7W6V
  - Ideal for: Cooking, Stalls & Shops

### SHREYAS SOLAR LAMP

- Folding Solar Panel 3.4w 7.4V, 2600mAh Lithium Ion Battery
  - Carries 2 bulbs working for 8h after fully charged
  - 5V 500mA USB Port, most of mobile phone charging
    - One touch for showing power available & switch
    - Easy operation & Faster charging
  - Ideal for: Cooking, Reading, Working

### KATELYN SOLAR LAMP

- 6W 6V Solar Panel with aluminum frame
- Carries 3 bulbs working for 8h after fully charged
- 5V 500mA USB port for Mobile Charging
- One touch for showing power available & switch, easy operation
- 5200mAh 3.7V Lithium Battery for long lasting
- 100LM high brightness bulb
- Ideal for: Lighting multiple rooms, mobile charging

### SUNLITE SOLAR LAMP

- Polycrystalline silicon solar panel on top
  - 2 watts (maximum power point)
- Center column contains 32 LEDs, working for 8.4 h after fully charged
  - 2200mAh Lithium-ion battery
- Easily replaceable & Provide mobile charging too
- One touch for showing power available & switch, easy operation
- Ideal for: Construction work, Rugged use

### BHANU SOLAR LANTERN

- Long work time, 5-8 hours
- Flexible Stand for multi-use
- Durable, Portable, Ultra light
- 550mAh LIFEP04 battery, 3 years lifespan
- Built in high Efficiency Solar Panel
- Solar Lamp with 0.75W bright LED
- Ideal for: Reading, Studying
